

MOHAMMED ALTIGANI

FULLSTACK DEV

SUMMARY

I am a skilled Web Developer with over 4 years of experience in creating modern, responsive web designs and web-based systems. My expertise includes:

- Developing robust applications using Laravel, including features like routing, authentication, notifications, sessions, caching, and APIs (RESTful and GraphQL).
- Building dynamic and responsive web applications using front-end technologies like HTML, CSS, JavaScript, Vue.js, React, and Next.js, with a strong emphasis on creating intuitive and user-friendly designs.
- Skilled in database management and administration, with expertise in MySQL, PostgreSQL, MSSQL, Redis, and MongoDB, ensuring efficient data storage, retrieval, and performance optimization.
- Focused on enhancing customer experience through intuitive interfaces and scalable web solutions.

SKILLS

CORE WEB & SOFTWARE DEVELOPMENT

- **Front-End Proficiency:** HTML, CSS, JavaScript, jQuery
- **Object-Oriented Programming (OOP):** In-depth knowledge of concepts (inheritance, encapsulation, abstraction) in PHP and JavaScript
- **Design Principles:** SOLID, KISS, DRY, and Domain-Driven Development
- **Design Patterns:** Familiar with creational, behavioral, and structural patterns
- **Architectures:** Experience with MVC, MVVM, and HMVC
- **Server-Side Frameworks:** Proficient with Laravel, Symfony, and Express; general knowledge and usage across multiple environments
- **API & Data Communication:** Experience with GraphQL (integration and querying), RESTful APIs, and WebSockets for real-time data exchange

DATABASES & DATA MANAGEMENT

- **Relational Databases:** Extensive experience with MySQL, PostgreSQL (psql), MSSQL, and SQLite. Skilled in schema design, procedural/functional queries (stored procedures, functions), complex queries, and performance optimization.
- **Non-Relational & Caching:** Proficient with Redis, Memcached, and MongoDB for key-value storage, caching, indexing, and document-oriented data models.
- **Database Management:** Experienced in monitoring, maintenance, and troubleshooting to ensure data integrity and system stability.

EDUCATION

2016 - 2023

Omdurman Islamic University

- Bachelor of Science in Computing and Information Systems

PROGRAMMING SKILLS

- | | |
|--------------|-----------|
| • HTML | ● ● ● ● ● |
| • CSS | ● ● ● ● ● |
| • JAVASCRIPT | ● ● ● ● ● |
| • NODE JS | ● ● ● ● ● |
| • PHP | ● ● ● ● ● |
| • MYSQL | ● ● ● ● ● |

FRAMEWORKS SKILLS

- | | |
|-------------------------|-----------|
| • BOOTSTRAP - CSS | ● ● ● ● ● |
| • TAILWIND - CSS | ● ● ● ● ● |
| • REACT JS - JAVASCRIPT | ● ● ● ● ● |
| • VUE JS - JAVASCRIPT | ● ● ● ● ● |
| • EXPRESS - NODEJS | ● ● ● ● ● |
| • LARAVEL - PHP | ● ● ● ● ● |
| • SYMFONY - PHP | ● ● ● ● ● |

TECHNOLOGY

- CI/CD Pipelines
- Docker
- Cloud Services - AWS
- Cache Server - Redis/Memcached
- Nginx/Apache
- Version Cotrol - Git , GitHub , BitBuket
- Firbase SDK

TOOLS & ENVIRONMENTS

- **Linux Environments:** Proficiency in command-line tools and basic system administration
- **Version Control:** Expertise with Git, GitHub, BitBuket
- **Continuous Integration (CI):** Experience setting up and working with CI pipelines

PROJECT & TEAM COLLABORATION

- **Project Management:** Familiarity with planning, tracking, and coordinating software projects
- **Debugging & Testing:** Strong problem-solving skills, adept at diagnosing and resolving issues
- **Teamwork & Communication:** Effective collaboration in cross-functional teams

SOFT SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

HARD SKILLS

- Programming Languages
- Data Analysis
- Project Management
- Technical Writing
- Database Management

WORK EXPERCENCE

MAWJ PLATFORM (FULL STACK DEVELOPER, 2024 – PRESENT, UAE)

Currently serving as a Full Stack Developer for Mawj Platform, where I design and maintain a comprehensive dashboard, APIs, and a user-facing website built with Next.js. The platform documents engineering projects and buildings, enabling users to publish tenders, manage bids, and connect with engineering experts for job postings. I leverage AWS Cloud services, including EC2 for scalable hosting and Route 53 for domain management, to ensure high availability and optimal performance. My role involves implementing secure authentication protocols, optimizing code quality, and utilizing Agile methodologies to meet rapid development cycles. Additionally, I collaborate closely with cross-functional teams to enhance user experience and maintain a scalable, maintainable application architecture.

C4D DELIVERY COMPANY (BACK END DEVELOPER, 2024 – PRESENT, SAUDI ARABIA, MADINA)

As a Back End Developer at C4D Delivery Company, I lead the development of robust back-end solutions using PHP and the Symfony framework. I create RESTful APIs to facilitate seamless data exchange and integrate third-party services to expand platform functionalities. My responsibilities include optimizing SQL queries to enhance database performance, developing reusable code libraries for future scalability, and ensuring timely project delivery within an Agile Scrum environment. I also implement unit testing to maintain high code quality and conduct thorough debugging to resolve technical issues, thereby improving overall system efficiency and reliability.

MSC COMPANY (FULL STACK DEVELOPER, 2022 – 2024, SYDAN, KHARTOM, AL ARABI)

During my tenure at MSC Company as a Full Stack Developer, I focused on creating user-centric web applications using HTML, CSS, and JavaScript. I collaborated with designers and QA teams to deliver high-quality software within tight deadlines, utilizing JavaScript and PHP to meet diverse project requirements. My role involved implementing secure authentication protocols, conducting performance audits, and adopting Agile methodologies to enhance team productivity. I maintained clean and scalable code through meticulous reviews and debugging, and demonstrated adaptability by swiftly learning and integrating new technologies to address evolving business needs.

PROJECTS

I Have Alot of Project In Each Departments As Front End Or Full Stacks App

■ Mawj Platform UAE

- : Developed a comprehensive dashboard, APIs, and user-facing website for Mawj, a platform dedicated to documenting engineering buildings and projects, enabling tender publication, bid management, and job postings for engineering experts.
- Technology: PHP, MySQL, JavaScript, Laravel, DataTable , Nextjs
- Link: mawjplatform.com

■ Happy Baby Ticketing System (Events Company) UAE

- Description: Developed an online ticket booking platform featuring QR code generation and integrated payments (Foloosie).
- Technology: PHP, MySQL, JavaScript, Laravel, DataTable
- Link: happybabyevent.ae

■ Order Shaping & Management (KSA) – C4D

- Description: Built a dashboard and APIs to streamline order processing and domain management.
- Technology: PHP, MySQL, JavaScript, Laravel, Livewire, DataTable
- Link: proofast.com/v2/login

FASTER - Dashboard- KSA

Order Shaping And Managements Domains In KSA Make Dashboard And Apis - MSC

Technology: PHP-MYSQL- JAVASCRIPT- LARAVEL-LIVEWIRE -DATATABLE

link: <https://proofast.com/v2/login>

■ Treasury Management System

- Description: Provided a centralized solution for tracking and reconciling financial transactions, ensuring data integrity.
- Technology: PHP, MySQL, JavaScript, Laravel, DataTable
- Link: (Not provided — add if available)

■ Real State Managements System

- Description: Built a platform to handle property listings, contracts, and site offerings, complete with an admin dashboard and APIs.
- Technology: PHP, MySQL, JavaScript, Laravel, DataTable
- Link: github.com/jksaWork/KSA_Soultion_Properties_System

■ Employee Managements System

- Description: Oversaw employee data, finances, salaries, and incentives to streamline HR processes.
- Technology: PHP, MySQL, JavaScript, Laravel
- Link: github.com/jksaWork/OUI_Employee_Salaries_And_Incentive

■ Botagaty (App in Salla Company)

- Description: Implemented a dashboard and webhook integrations to automate digital product purchases and add items to the Salla online store.
- Technology: PHP Javascript
